

# RARE & FOREVER™

## The Rare & Forever Viewer

The Viewer is an easy-to-use device that allows you to see the inscription and number using your eye, a tablet or mobile device.

### Instructions

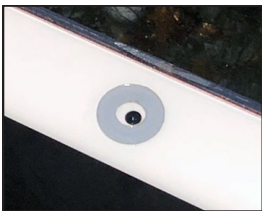

1. Remove the locator ring from the base of the Viewer with the pick.
2. Place the ring onto the front of your tablet/ phone and center it over the camera.
3. Turn on the Viewer (on the side) and clean the glass with the cloth.
4. Place the Viewer on top of the locator ring.
5. Clean the diamond with the cloth and place the diamond on the Viewer glass.

1. R&F viewer kit

2. Remove locator ring

3. Center locator ring over front camera

4. Center opening on locator ring

1. Place clip over jewelry

2. Lens on bottom of viewer

## See the Rare & Forever image and number

1. Open the GemEx Ion app to see a live image of your diamond.
2. Use the pick to center the diamond
3. Focus, adjust the brightness or switch to black/white to see the engraving
4. Zoom in, zoom out or rotate the Viewer if needed to see a clear image.

## View the Rare & Forever with your eyes:

1. Use the clip to hold the ring in place on the Viewer glass.
2. Look through the bottom of the Viewer to see the R&F logo and number.
